

Features

- High-resolution image with 1 billion colours through digital processing of the RGB signals with 10-bit depth of shade per channel.
- Precisely differentiated colour reproduction and digitally controllable contour enhancement for optimum optical evaluation possibilities.
- Superb illumination with high-performance Xenon light source and digital brightness control.
- Easy and intuitive data management for rapid storage and management of patient and user data.
- Extensive possible connections for peripheral equipment.
- Individual monitor configuration options.

- Pentax EPM-3300 Processor
- Xenon Light Source
- Video Gastroscope
- Video Colonoscope
- High Resolution Monitor
