

Stryker's Innovative Endoscopy Equipment has set a new standard in the Operating Room. Stryker pioneered the first high-definition digital camera, an advance that revolutionized the minimally invasive surgical market. This high-definition platform continues to deliver unsurpassed resolution, brightness, and optical clarity through one camera system. The HD camera, HD flat panel monitors, combined with an ultra high-definition capture device, provide cutting-edge technology and exceptional results in today's operating room.
