

The **Masimo Pronto Pulse CO-Oximeter** incorporates advanced technology for the non-invasive spot-checking of Total Hemoglobin. In contrast to conventional pulse oximeters that solely measure SpO₂ and Pulse Rate, the Masimo Pronto goes a step further by also assessing Perfusion Index and Total Hemoglobin through a non-invasive finger sensor, ensuring minimal patient discomfort. Notably, the Masimo Pronto demonstrates motion tolerance during SpO₂ measurements and delivers prompt results for an efficient and timely assessment.

Features

- Non-invasive sensor technology means no blood needs to be drawn
- Uses finger sensor for readings
- Measures: hemoglobin (SpHb), arterial oxygen saturation (SpO₂), pulse rate (PR), and perfusion index (PI)
- Reduces the need to wait for lab results
- Decreases risk of accidental needle sticks and exposure to blood-borne pathogens
- Requires no lab consumables or waste disposal
- LED display screen
- Has a built-in alarm to notify of low battery and system failure
- Self Calibrating

Specifications

Dimensions

Height: 6.9 in (34.29 cm)

Width: 3 in (19.05 cm)

Depth: 1.4 in (30.48 cm)

Weight: 13 lbs. (3.67 kg)

Electrical

Battery Power: 4 AA Alkaline

Capacity: 8 hours

Environmental:

Operating Temperature: 41°–104° F (5°–40° C)

Atmospheric Pressure: 500–1060 mbar
