

Complete with Cut, Blend, Coagulation, Fulguration, and Bipolar modes, the multi-purpose Bovie Aaron 1250 electrosurgical generator is ready for any surgery environment. Incorporated in the unit are automatic safety features like self-test circuits, audible tones, discreet outputs, isolated circuitry, and Bovie NEM™ (neutral electrode monitoring) so there are never any unexpected errors while in use. With 120 watts of cutting power and 90 watts of blended (80 watts max power) and fulguration (40 watts max power), this generator is one of the toughest on the market.

Features

- Five output modes: Cut, Blend, Coagulation, Fulguration and Bipolar
- Audible tones
- Self-test circuits
- Discreet output
- Digital error correction
- Isolated circuitry

Specifications

Dimensions

Width: 26.04 cm (10.25")
Height: 15.24 cm (6")
Depth: 29.85 cm (11.75")
Weight: < 5.5 kg (< 12 lbs.)

Output Power

Cut: 120 watts
Blend: 90 watts
Coagulation 80 watts
Fulguration 40 watts
Bipolar: 30 watts

Line Voltage

A1250: 120 VAC \pm 10%
A1250-220: 220 VAC \pm 10%

Output Frequency

490 kHz \pm 5

Line Frequency

50-60 Hz
