The Datascope Spectrum OR is a patient monitor that can be used in an operating room setting. The Spectrum offers readings for additional measurements like ECG, SpO2, NIBP, Spirometry, temperature, and BISx. The Datascope system is based on the same platform as the Passport 2, offering either a Masimo or Nellcor SpO2 within the system. The system is easy-to-use with a 12-inch screen display monitor, quick-access menus, and onetouch functionality.

## Features

- 12-inch high- contract color display
- Auto -adjustable display for optimal visibility
- 3-8 waveform configurations
- BIS Consciousness monitoring
- Includes Pre-anesthesia monitoring features:
- 3 or 5 lead ECG
- Non-invasive blood pressure
- Comes with either a Nelcor or Masimo SpO2 monitoring system
