

The **Edan SE-301** is an EKG that offers a compact, lightweight, and portable design. The Edan SE 301 offers a 5-inch high-resolution color touch screen that can display waveform readings and an internal printer. The system has two UBS ports and a MicroSD card slot for external printing. The Edan ECG system offers a variety of connection options for connecting with a data management system, including LAN or the optional built-in wifi connection. The Edan can provide up to 8.5 hours of battery life on a fully charged battery. Making it ideal for long-term mobile applications.

Features

- Ultra-compact and lightweight design
- 5" High-resolution color touch screen
- Comprehensive filters & anti-noise technology
- Enhanced powerful technical specifications provide reliable signal quality
- 12-lead simultaneous acquisition and display
- Long-time sampling
- Large storage capacity
- Support USB flash disk and micro SD card to extend memory
- Built-in rechargeable Li-ion battery
- Support external printer via USB port

Specifications

Dimensions	Height: 2.13 in (5.41 cm) Length: 8.81 in (22.37 cm) Width: 5.63 in (14.3 cm) Weight: 2.2 lbs (.99 kg)
Display	Display Type: High-Resolution Touch Screen
Measurement	Frequency Range: 80 MHz ~ 800 MHz Sampling Rate: 16,000/sec/channel
Power Supply	Power Supply Type: Built-in Lithium Battery pack Battery Life: Up to 3.5 hours
Environmental	Safe Operating Temperature: +5°C (+41°F) ~ +40°C (+104°F) Safe Storage Temperature: -20°C (-4°F) ~ +55°C (+131°F) Operating Humidity: 15%RH ~ 95%RH Non-Condensing Storage Humidity: 15%RH ~ 95%RH Non-Condensing
