

The NuBOOM S can transform your procedure room into an affordable surgical theater in just 2 days. The NuBOOM S adds two positionable monitors, displaying up to 4 images from the arms of an easy-to-install tower. An optional arm (shown) can also suspend lights or a radiation shield

Features

- Add boom visualization to your procedure room without ceiling construction costs
- Consolidate multiple medical devices into one slim tower profile
- Enjoy comfortable image viewing from most any spot in the room
- dual 24" or 26" displays
- 6 image source inputs
- shelves
