

Soma offers the **Integra MAYFIELD Papadopoulos Posterior Cervical Spine Support A1073** refurbished up to 50% below the cost of new. The MAYFIELD PCS Support A1073 sits in front of the headrest and supports the spine of the patient while in the anatomical position. The Support is Made of Radiolucent material. This makes it compatible to be used in CT imaging and MR imaging needs. The PCS Support A1073 works with a variety of MAYFIELD skeletal stabilization pieces to create the unit you need for a procedure.

## Features

- Made of radiolucent material
- Can be used for CT and MR imaging
- Adjustable in anterior-posterior, rostral-caudal, and medial-lateral
- Optional gel pads that are not included in the standard package.
- Works with the MAYFIELD Base Units.
