The **Philips Pagewriter Touch** is an electrocardiograph system that was designed for hospital use. The Pagewriter Touch offers accurate, high-quality EKG reading. The 15-inch color touch screen display can easily and quickly show a snapshot of an ECG reading before printing. The Pagewriter Touch uses the Philips 12-leads to produce 10 seconds of a clear EKG. The system offers wireless connectivity that allows the patient's data to be transferred from the EKG to the data storage system in your medical facility.

Features

- Easy, Fast, 12-Lead ECGs for Large or Small Hospitals
- Designed for high volume
- High resolution touch screen
- Preview reports before printing
- Wireless communication
