

The **SonoScape A6** is a portable black and white ultrasound system. The SonoScape A6 can provide ultrasonic imagery for gynecology, obstetrics, anesthesia, Urology, Vascular, MSK, Breast, and small parts imaging. The system comes with an internal battery that allows you four up to 3 hours of ultrasound imaging before charging. The 12-inch LCD monitor can tilt 30 degrees. The ultrasound system comes with two transducer/probe ports. The SonoScape ultrasound is an easy-to-use operating system with 1 GB of storage and network DICOM connectivity for data transfers to the facility's patient database.

Features

- 12" LCD Display
- 2D, M-Mode
- THI Tissue Harmonics Imaging
- Dual USB 2.0
- Internal Flash memory for image and patient data storage
- PDF Reporting
- Customizable controls and buttons
- S-Video and VGA out
- DICOM 3.0

Specifications

Physical Specification

Size: L x W x H ≤ 36 x 180 x 346 (mm)

Weight: Aprox 6kg

Environmental Requirements

Operation Environment

Temperature: -20°C to +55°C

Relative Humidity: 20% to 90% (non condensing)

Atmospheric pressure: 700 to 1060hPa

Transportation and Storage Environment

Temperature: -20°C to +55°C

Relative humidity: 20%- 90% (non condensing)

Atmospheric Presure: 700 to 1060hPa

Power Supply

110-240V~, 50/60Hz

130 VA (MAX.)
