Stryker RemB Surgical Power Tool

The **Stryker RemB** is a versatile micro electric system that combines the trusted performance of the CORE console with lightweight, specialized handpieces that allows surgeons to work effectively with greater precision and control. The RemB U DRIVER features a pistol grip handpiece and uses a variety of attachments to perform various small bone orthopedic procedures.

Features

- Universal Driver with pistol grip handpiece that utilizes drilling, reaming, pinning, and cutting attachments.
- Oscillating saw with tool-less blade mount.
- Reciprocating saw with easy and intuitive insertion/removal of blades without tools.
