

The refurbished **Verathon GlideScope Go** is a video laryngoscope that features a high-resolution scratch-resistant 3.5-inch color display. With it's anti-glare coating and a wide field of view, the GlideScope Go improves visualization and first-pass intubation. This Verathon video laryngoscope can be used on neonatal and adult patients. This video laryngoscope is durable, easy to charge, and simplifies maintenance with it's fully submersible screen and battery.

## Features

- Fully disposable, single-use blades to support infection control initiatives
- 3.5" landscape, color display with vertical tilt adjustment for maximum flexibility
- Easy to use and easy to train, with on/off button and intuitive display
- Integrated battery charges to 80% in 2 hours and delivers a minimum of 100 minutes of continuous use on a full charge
- Automatic recording with removable micro-USB drive
- Scratch-resistant screen with anti-glare coating for reliable clarity in any environment
- Rugged design ensures functionality even when dropped from 4 feet
