

Whether it's for an emergency situation, bedside monitoring or routine spot-check, the NPB-70 handheld capnograph delivers accurate etCO<sub>2</sub> values. The NPB-70 unites end-tidal CO<sub>2</sub> monitoring - including waveform display - with proven Nellcor Puritan Bennett pulse oximetry in a portable, handheld monitor. It gives you the sophistication of a bedside monitor and the convenience of a handheld.

## Features

- For mechanically ventilated and spontaneously breathing patients.
- Full-featured capnography previously available only in much larger monitors.
- For use on intubated and nonintubated patients.
- Low sample flow rate of 50 ml/min allows monitoring on the widest range of patients, from neonates to adults.
- Patented Microstream™ technology and versatile range of FilterLine accessories enable CO<sub>2</sub> monitoring even in challenging high-humidity environments.
- Innovative optical bench enhances stable, accurate measurements from a small sample.
- Capnographic waveforms and trends.

# Specifications

## **Dimensions**

Size: 2.95 in H x 9.06 in W x 5.04 in D

Weight: 3.07 lb (2.6 kg)

## **Power**

Power Requirements: 100 - 240 VAC; 50/60 Hz; 25 - 39 VA  
fuse rating: Qty2, 2A, 250V; slow-blow IEC (5x20 mm)
