

# BURTON OUTPATIENT LED

## ABOUT

The **Burton Outpatient LED** examination light is a high-performance, energy-efficient light designed for hospitals, physician offices, and veterinary applications. This next-generation LED system from Burton delivers bright, shadow-free illumination with excellent color accuracy, ensuring precision for examinations and minor procedures. Built for durability and ease of use, the Outpatient LED provides long-lasting performance while reducing energy consumption and maintenance needs compared to the halogen model.

## FEATURES

- Bright, High-Quality Illumination:** Produces up to 90,000 lux at 24 inches for excellent visibility.
- Superior Color Rendering:** Features a CRI of 95 and an R9 value over 87 for accurate skin tone representation.
- Virtually Heat-Free Operation:** LED technology minimizes heat output, enhancing patient comfort.
- Energy-Efficient Performance:** Uses 75% less energy than traditional halogen lights with an average lifespan of 50,000 hours.
- Anti-Microbial Coating:** Helps inhibit microbial growth for enhanced infection control.
- Multiple Mounting Options:** Available in floor stand, wall mount, and single or dual ceiling mounts for versatile placement.
- Low Maintenance Design:** Smooth, easy-to-clean surfaces and long-lasting LEDs reduce upkeep.

## SPECIFICATIONS

- Illuminance:** 90,000 Lux (8361 fc) at 24" (61 cm)
- Color Temperature:** 3700 Kelvin
- CRI (Color Rendering Index):** 95
- Light Source:** Light Emitting Diode (LED)
- Rated Life of LED:** 50,000-hour average LED life
- Power:** 42 Watts
