Surgical Table Accessories

BAXTER HILLROM SIMPLICITY KNEE CRUTCH

ABOUT

The **Baxter Simplicity Knee Crutch** holds a patient's leg in place during short procedures on the operating table. This knee crutch can be used cystoscopy, gynecology, urology, and laparoscopy procedures. The handle adjusts the height and rotates 360 degrees, so the surgical team can set the leg where they need it. A soft pad sits behind the knee and a Velcro strap keeps the leg from shifting. It mounts to the table side rail with compatible clamps and weighs about 5 pounds per crutch.

FEATURES

400 lb Capacity: Rated for a safe working load of 400 lbs (181 kg).

Height Adjustment: The handle adjusts from 16 to 21 inches (40.5 to 53 cm).

360° Rotation: The handle rotates a full circle horizontally for leg positioning.

Padded Knee Support: A soft, flexible pad lowers pressure behind the knee.

Velcro Strap: A strap on the boot helps keep the leg secure.

DIMENSIONS

Overall Size: 24.6 in x 11.4 in x 11.2 in (62.5 cm x 29 cm x 28.5 cm)

Weight: 5 lb (2.3 kg) each; 10 lb (4.5 kg) per pair
